

East Colfax Avenue & Dunkirk Street Intersection Improvement Project

PROJECT BACKGROUND

In May 2019, the Colorado Department of Transportation began an intersection safety improvement project on East Colfax Avenue and Dunkirk Street in Aurora. Crews will upgrade traffic signals and improve sight distance for left turn movements from East Colfax Ave. to Dunkirk St. Improvements include minor widening to realign the left turn lanes on East Colfax Ave., paving, signal work, drainage improvements, new curb ramps, curb and gutter work, signing and striping.

IMPACTS TO AURORA SPORTS PARK

This project will impact users of the Aurora Sports Park. We encourage you to add a half hour to get in and out of the complex while the project is underway. You can expect:

- **On East Colfax Ave.:** 24-hour, seven days a week left lane closures in both directions on East Colfax Avenue at Dunkirk Street.
- **On Dunkirk St., exiting Aurora Sports Park:** Reduction of the left double turn movement from Dunkirk St. to westbound East Colfax Ave. to a single left turn movement.
- **East Colfax Ave. and Dunkirk St. intersection:** Occasional weekday full closures of the intersection, requiring full closure of the double left turn movement exiting Aurora Sports Park onto westbound East Colfax Ave. as crews implement drainage improvements. Additionally, intermittent closure of the right turn pockets at this intersection. Traffic may continue to turn right using the through lane.

Weather permitting, work at this location is expected to conclude in August 2019.
