Aurora Parks, Recreation and Open Space Department (PROS) appreciates your understanding and patience as we all continue to work through this difficult period together.

The health and safety of our guests and staff is our top priority. Please be aware of the following modifications which are all based on guidance provided by the Colorado Department of Public Health and Environment which can be found [here](#).

PROS is using a phased approach to reopening indoor/outdoor spaces and programs that complies with the current guidelines and adheres to strict safety protocols for both guests and staff. We are diligently working to keep the community and staff as safe as possible by implementing reduced facility capacities, limiting gatherings, enforcing social distancing guidelines and enhancing cleaning and sanitization efforts.

Please continue to check your email, this website, and social media for updates. We appreciate everyone's patience, understanding and support as we work through this process.
